  - Net income for the third quarter of 2023 included non-cash after-tax gains of \$118.1 million, or \$0.32 per diluted share primarily due to the partial sale of the Company’s ownership interest in its SPARC Group joint venture (“SPARC”).

# EARNINGS RELEASE

We routinely post important information online on our investor relations website, investors.simon.com. We use this website, press releases, SEC filings, quarterly conference calls, presentations and webcasts to disclose material, non-public information in accordance with Regulation FD. ## Non-GAAP Financial Measures

This press release includes FFO, FFO per share, Real Estate FFO, Real Estate FFO per share and portfolio NOI growth which are financial performance measures not defined by generally accepted accounting principles in the United States (“GAAP”). Real estate FFO is FFO of the operating partnership less other platform investments and gain on disposal, exchange, or revaluation of equity interests, in each case, net of tax; and unrealized losses (gains) in fair value of publicly traded equity instruments and derivative instrument, net. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP measures are included in this press release and in Simon’s supplemental information for the quarter. FFO and NOI growth are financial performance measures widely used in the REIT industry. Our definitions of these non-GAAP measures may not be the same as similar measures reported by other REITs.

## Forward-Looking Statements

Certain statements made in this press release may be deemed “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Although the Company believes the expectations reflected in any forward-looking statements are based on reasonable assumptions, the Company can give no assurance that its expectations will be attained, and it is possible that the Company’s actual results may differ materially from those indicated by these forward-looking statements due to a variety of risks, uncertainties and other factors. Such factors include, but are not limited to: changes in economic and market conditions that may adversely affect the general retail environment, including but not limited to those caused by inflation, recessionary pressures, wars, escalating geopolitical tensions as a result of the war in Ukraine and the conflicts in the Middle East, and supply chain disruptions; the inability to renew leases and relet vacant space at existing properties on favorable terms; the inability to collect rent due to the bankruptcy or insolvency of tenants or otherwise; the potential loss of anchor stores or major tenants; an increase in vacant space at our properties; the potential for violence, civil unrest, criminal activity or terrorist activities at our properties; natural disasters; the availability of comprehensive insurance coverage; the intensely competitive market environment in the retail industry, including e-commerce; security breaches that could compromise our information technology or infrastructure; reducing emissions of greenhouse gases; environmental liabilities; our international activities subjecting us to risks that are different from or greater than those associated with our domestic operations, including changes in foreign exchange rates; our continued ability to maintain our status as a REIT; changes in tax laws or regulations that result in adverse tax consequences; risks associated with the acquisition, development, redevelopment, expansion, leasing and management of properties; the inability to lease newly developed properties on favorable terms; the loss of key management personnel; uncertainties regarding the impact of pandemics, epidemics or public health crises, and the associated governmental restrictions on our business, financial condition, results of operations, cash flow and liquidity; changes in market rates of interest; the impact of our substantial indebtedness on our future operations, including covenants in the governing agreements that impose restrictions on us that may affect our ability to operate freely; any disruption in the financial markets that may adversely affect our ability to access capital for growth and satisfy our ongoing debt service requirements; any change in our credit rating; risks relating to our joint venture properties, including guarantees of certain joint venture indebtedness; and general risks related to real estate investments, including the illiquidity of real estate investments.

The Company discusses these and other risks and uncertainties under the heading “Risk Factors” in its annual and quarterly periodic reports filed with the SEC. The Company may update that discussion in subsequent other periodic reports, but except as required by law, the Company undertakes no duty or obligation to update or revise these forward-looking statements, whether as a result of new information, future developments, or otherwise.

Footnotes to Unaudited Financial Information

### Notes:

- (A) Excess investment represents the unamortized difference of our investment over equity in the underlying net assets of the related partnerships and joint ventures shown therein. The Company generally amortizes excess investment over the life of the related assets.
- (B) The Unaudited Joint Venture Combined Statements of Operations do not include any operations or our share of net income or excess investment amortization related to our investments in Klépierre, TRG and other platform investments. Amounts included in Footnote D below exclude our share of related activity for our investments in Klépierre, TRG and other platform investments. For further information on Klépierre, reference should be made to financial information in Klépierre's public filings and additional discussion and analysis in our Form 10-K.
- (C) This report contains measures of financial or operating performance that are not specifically defined by GAAP, including FFO, FFO per share, Real Estate FFO and Real Estate FFO per share. FFO is a performance measure that is standard in the REIT business. We believe FFO provides investors with additional information concerning our operating performance and a basis to compare our performance with those of other REITs. We also use these measures internally to monitor the operating performance of our portfolio. Our computation of these non-GAAP measures may not be the same as similar measures reported by other REITs.

We determine FFO based upon the definition set forth by the National Association of Real Estate Investment Trusts ("NAREIT") Funds From Operations White Paper – 2018 Restatement. Our main business includes acquiring, owning, operating, developing, and redeveloping real estate in conjunction with the rental of retail real estate. Gains and losses of assets incidental to our main business are included in FFO. We determine FFO to be our share of consolidated net income computed in accordance with GAAP, excluding real estate related depreciation and amortization, excluding gains and losses from extraordinary items, excluding gains and losses from the sale, disposal or property insurance recoveries of, or any impairment related to, depreciable retail operating properties, plus the allocable portion of FFO of unconsolidated joint ventures based upon economic ownership interest, and all determined on a consistent basis in accordance with GAAP. However, you should understand that FFO does not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income determined in accordance with GAAP as a measure of operating performance, and is not an alternative to cash flows as a measure of liquidity.

- (D) Includes our share of:
- Gain on land sales of \$7.8 million and \$3.2 million for the three months ended September 30, 2024 and 2023, respectively, and \$15.3 million and \$7.8 million for the nine months ended September 30, 2024 and 2023, respectively.
  - Straight-line adjustments increased (decreased) income by \$3.7 million and \$1.4 million for the three months ended September 30, 2024 and 2023, respectively, and (\$5.1) million and (\$10.4) million for the nine months ended September 30, 2024 and 2023, respectively.
  - Amortization of fair market value of leases increased income by \$0.1 million and \$0.0 million for the three months ended September 30, 2024 and 2023, respectively, and \$0.4 million and \$0.2 million for the nine months ended September 30, 2024 and 2023, respectively.

We discuss these and other risks and uncertainties under the heading “Risk Factors” in our annual and quarterly periodic reports filed with the SEC. We may update that discussion in subsequent other periodic reports, but, except as required by law, we undertake no duty or obligation to update or revise these forward-looking statements, whether as a result of new information, future developments, or otherwise.

Any questions, comments or suggestions regarding this Supplemental Information should be directed to Tom Ward, Senior Vice President of Investor Relations (tom.ward@simon.com or 317.685.7330).

FFO and NOI are performance measures that are standard in the REIT business. We believe FFO and NOI provide investors with additional information concerning our operating performance and a basis to compare our performance with the performance of other REITs. We also use these measures internally to monitor the operating performance of our portfolio. Our computation of these non-GAAP measures may not be the same as similar measures reported by other REITs.

The non-GAAP financial measures used in this report should not be considered as alternatives to net income as a measure of our operating performance or to cash flows computed in accordance with GAAP as a measure of liquidity nor are they indicative of cash flows from operating and financial activities. Reconciliations of other non-GAAP measures used in this report to the most-directly comparable GAAP measure are included in the tables on Reconciliations of Non-GAAP Financial Measures and in the Earnings Release for the latest period.

## NON-GAAP PRO-RATA FINANCIAL INFORMATION

The following pro-rata financial information is not, and is not intended to be, a presentation in accordance with GAAP. The non-GAAP pro-rata financial information aggregates our proportionate economic ownership of each asset in our property portfolio that we do not wholly own. The amounts in the column labeled “Our Share of Joint Ventures” were derived on a property-by-property or entity-by-entity basis by applying to each line item the ownership percentage interest used to arrive at our share of the net operations for the period consistent with the application of the equity method of accounting to each of our unconsolidated joint ventures. A similar calculation was performed for the amounts in the column labeled “Noncontrolling Interests,” which represents the share of consolidated assets and net income or loss attributable to any noncontrolling interest.

We do not control the unconsolidated joint ventures and the presentations of the assets and liabilities and revenues and expenses do not represent our legal claim to such items. The operating agreements of the unconsolidated joint ventures generally provide that partners may receive cash distributions (1) to the extent there is available cash from operations, (2) upon a capital event, such as a refinancing or sale or (3) upon liquidation of the venture. The amount of cash each partner receives is based upon specific provisions of each operating agreement and varies depending on factors including the amount of capital contributed by each partner and whether any contributions are entitled to priority distributions. Upon liquidation of the joint venture and after all liabilities, priority distributions and initial equity contributions have been repaid, the partners generally would be entitled to any residual cash remaining based on their respective legal ownership percentages.

We provide pro-rata financial information because we believe it assists investors and analysts in estimating our economic interest in our unconsolidated joint ventures when read in conjunction with the Company’s reported results under GAAP. The presentation of pro-rata financial information has limitations as an analytical tool. Some of these limitations include:

- The amounts shown on the individual line items were derived by applying our overall economic ownership interest percentage determined when applying the equity method of accounting and do not necessarily represent our legal claim to the assets and liabilities, or the revenues and expenses; and
- Other companies in our industry may calculate their pro-rata interest differently than we do, limiting the usefulness as a comparative measure.

Because of these limitations, the pro-rata financial information should not be considered in isolation or as a substitute for our financial statements as reported under GAAP. We compensate for these limitations by relying primarily on our GAAP results and using the pro-rata financial information only supplementally.
