The exhibit filed with this report contains measures of financial or operating performance that are not specifically defined by generally accepted accounting principles (“GAAP”) in the United States, including funds from operations (“FFO”), FFO per share, funds available for distribution, net operating income (“NOI”), domestic property NOI and portfolio NOI. FFO and NOI are performance measures that are standard in the REIT business. We believe FFO and NOI provide investors with additional information concerning our operating performance and a basis to compare our performance with the performance of other REITs. We also use these measures internally to monitor the operating performance of our portfolio. Our computation of these non-GAAP measures may not be the same as similar measures reported by other REITs.

These non-GAAP financial measures should not be considered as alternatives to net income as a measure of our operating performance or to cash flows computed in accordance with GAAP as a measure of liquidity nor are they indicative of cash flows from operating and financial activities.

Reconciliations of each of these non-GAAP measures to the most-directly comparable GAAP measure are included in the exhibit.

The information in this report and the exhibit filed herewith is being furnished, not filed, for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and pursuant to Items 2.02 and 7.01 of Form 8-K, will not be incorporated by reference into any filing under the Securities Act of 1933, as amended.

Forward-Looking Statements

Certain statements made in this press release may be deemed "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Although the Company believes the expectations reflected in any forward-looking statements are based on reasonable assumptions, the Company can give no assurance that its expectations will be attained, and it is possible that the Company's actual results may differ materially from those indicated by these forward-looking statements due to a variety of risks, uncertainties and other factors. Such factors include, but are not limited to: uncertainties regarding the impact of the COVID-19 pandemic and governmental restrictions intended to prevent its spread on our business, financial condition, results of operations, cash flow and liquidity and our ability to access the capital markets, satisfy our debt service obligations and make distributions to our stockholders; changes in economic and market conditions that may adversely affect the general retail environment; the potential loss of anchor stores or major tenants; the inability to collect rent due to the bankruptcy or insolvency of tenants or otherwise; the intensely competitive market environment in the retail industry, including e-commerce; an increase in vacant space at our properties; the inability to lease newly developed properties and renew leases and relet space at existing properties on favorable terms; our international activities subjecting us to risks that are different from or greater than those associated with our domestic operations, including changes in foreign exchange rates; risks associated with the acquisition, development, redevelopment, expansion, leasing and management of properties; general risks related to real estate investments, including the illiquidity of real estate investments; the impact of our substantial indebtedness on our future operations, including covenants in the governing agreements that impose restrictions on us that may affect our ability to operate freely; any disruption in the financial markets that may adversely affect our ability to access capital for growth and satisfy our ongoing debt service requirements; any change in our credit rating; changes in market rates of interest; the transition of LIBOR to an alternative reference rate; our continued ability to maintain our status as a REIT; changes in tax laws or regulations that result in adverse tax consequences; risks relating to our joint venture properties, including guarantees of certain joint venture indebtedness; environmental liabilities; natural disasters; the availability of comprehensive insurance coverage; the potential for terrorist activities; security breaches that could compromise our information technology or infrastructure; and the loss of key management personnel. The Company discusses these and other risks and uncertainties under the heading "Risk Factors" in its annual and quarterly periodic reports filed with the SEC. Footnotes to Unaudited Financial Information

Notes:

- (A) Excess investment represents the unamortized difference of our investment over equity in the underlying net assets of the related partnerships and joint ventures shown therein. The Company generally amortizes excess investment over the life of the related assets.
- (B) The Unaudited Joint Venture Combined Statements of Operations do not include any operations or our share of net income or excess investment amortization related to our investments in Klépierre, TRG and other platform investments. Amounts included in Footnote D below exclude our share of related activity for our investments in Klépierre, TRG and other platform investments. For further information on Klépierre, reference should be made to financial information in Klépierre's public filings and additional discussion and analysis in our Form 10-K.
- (C) This report contains measures of financial or operating performance that are not specifically defined by GAAP, including FFO and FFO per share. FFO is a performance measure that is standard in the REIT business. We believe FFO provides investors with additional information concerning our operating performance and a basis to compare our performance with those of other REITs. We also use these measures internally to monitor the operating performance of our portfolio. Our computation of these non-GAAP measures may not be the same as similar measures reported by other REITs.
- We determine FFO based upon the definition set forth by the National Association of Real Estate Investment Trusts ("NAREIT") Funds From Operations White Paper – 2018 Restatement. Our main business includes acquiring, owning, operating, developing, and redeveloping real estate in conjunction with the rental of real estate. Gains and losses of assets incidental to our main business are included in FFO. We determine FFO to be our share of consolidated net income computed in accordance with GAAP, excluding real estate related depreciation and amortization, excluding gains and losses from extraordinary items, excluding gains and losses from the sale, disposal or property insurance recoveries of, or any impairment related to, depreciable retail operating properties, plus the allocable portion of FFO of unconsolidated joint ventures based upon economic ownership interest, and all determined on a consistent basis in accordance with GAAP. However, you should understand that FFO does not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income determined in accordance with GAAP as a measure of operating performance, and is not an alternative to cash flows as a measure of liquidity.
- (D) Includes our share of:
- Gains (loss) on land sales of \$0.7 million and (\$0.1) million for the three months ended December 31, 2021 and 2020, respectively, and \$7.1 million and \$8.0 million for the twelve months ended December 31, 2021 and 2020, respectively.
 - Straight-line adjustments decreased income by (\$5.0) million and (\$19.6) million for the three months ended December 31, 2021 and 2020, respectively, and (\$25.7) million and (\$23.9) million for the twelve months ended December 31, 2021 and 2020, respectively.
 - Amortization of fair market value of leases increased (decreased) income by \$0.0 million and \$1.7 million for the three months ended December 31, 2021 and 2020, respectively, and (\$0.6) million and \$5.2 million for the twelve months ended December 31, 2021 and 2020, respectively.
- (E) The three and twelve months ended December 31, 2021 include amortization of our excess investment in TRG of \$107.0 million and \$201.7 million, respectively. The three months ended December 31, 2021 include \$56.6 million of additional amortization expense related to the nine months ended September 30, 2021 as a result of the finalization of purchase accounting.
- (F) Amount of unrealized gain/loss in fair value of equity instruments in FFO reconciliation relates to retail real estate investments with readily determinable fair values.

Certain statements made in this Supplemental Package may be deemed "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Although we believe the expectations reflected in any forward-looking statements are based on reasonable assumptions, we can give no assurance that our expectations will be attained, and it is possible that our actual results may differ materially from those indicated by these forward-looking statements due to a variety of risks, uncertainties and other factors. Such factors include, but are not limited to: uncertainties regarding the impact of the COVID-19 pandemic and governmental restrictions intended to prevent its spread on our business, financial condition, results of operations, cash flow and liquidity and our ability to access the capital markets, satisfy our debt service obligations and make distributions to our stockholders; changes in economic and market conditions that may adversely affect the general retail environment; the potential loss of anchor stores or major tenants; the inability to collect rent due to the bankruptcy or insolvency of tenants or otherwise; the intensely competitive market environment in the retail industry, including e-commerce; an increase in vacant space at our properties; the inability to lease newly developed properties and renew leases and relet space at existing properties on favorable terms; our international activities subjecting us to risks that are different from or greater than those associated with our domestic operations, including changes in foreign exchange rates; risks associated with the acquisition, development, redevelopment, expansion, leasing and management of properties; general risks related to real estate investments, including the illiquidity of real estate investments; the impact of our substantial indebtedness on our future operations, including covenants in the governing agreements that impose restrictions on us that may affect our ability to operate freely; any disruption in the financial markets that may adversely affect our ability to access capital for growth and satisfy our ongoing debt service requirements; any change in our credit rating; changes in market rates of interest; the transition of LIBOR to an alternative reference rate; our continued ability to maintain our status as a REIT; changes in tax laws or regulations that result in adverse tax consequences; risks relating to our joint venture properties, including guarantees of certain joint venture indebtedness; environmental liabilities; natural disasters; the availability of comprehensive insurance coverage; the potential for terrorist activities; security breaches that could compromise our information technology or infrastructure; and the loss of key management personnel. We discuss these and other risks and uncertainties under the heading "Risk Factors" in our annual and quarterly periodic reports filed with the SEC. We may update that discussion in subsequent other periodic reports, but, except as required by law, we undertake no duty or obligation to update or revise these forward-looking statements, whether as a result of new information, future developments, or otherwise.

This report contains measures of financial or operating performance that are not specifically defined by generally accepted accounting principles (GAAP) in the United States, including FFO, FFO per share, funds available for distribution, net operating income (NOI), domestic portfolio NOI and portfolio NOI. FFO and NOI are performance measures that are standard in the REIT business. We believe FFO and NOI provide investors with additional information concerning our operating performance and a basis to compare our performance with the performance of other REITs. We also use these measures internally to monitor the operating performance of our portfolio. Our computation of these non-GAAP measures may not be the same as similar measures reported by other REITs.

The non-GAAP financial measures used in this report should not be considered as alternatives to net income as a measure of our operating performance or to cash flows computed in accordance with GAAP as a measure of liquidity nor are they indicative of cash flows from operating and financial activities. Reconciliations of other non-GAAP measures used in this report to the most-directly comparable GAAP measure are included in the tables on Reconciliations of Non-GAAP Financial Measures and in the Earnings Release for the latest period.

NON-GAAP PRO-RATA FINANCIAL INFORMATION

The following pro-rata financial information is not, and is not intended to be, a presentation in accordance with GAAP. The non-GAAP pro-rata financial information aggregates our proportionate economic ownership of each asset in our property portfolio that we do not wholly own. The amounts in the column labeled "Our Share of Joint Ventures" were derived on a property-by-property or entity-by-entity basis by applying to each line item the ownership percentage interest used to arrive at our share of the net operations for the period consistent with the application of the equity method of accounting to each of our unconsolidated joint ventures. A similar calculation was performed for the amounts in the column labeled "Noncontrolling Interests," which represents the share of consolidated assets and net income or loss attributable to any noncontrolling interest.

We do not control the unconsolidated joint ventures and the presentations of the assets and liabilities and revenues and expenses do not represent our legal claim to such items. The operating agreements of the unconsolidated joint ventures generally provide that partners may receive cash distributions (1) to the extent there is available cash from operations, (2) upon a capital event, such as a refinancing or sale or (3) upon liquidation of the venture. The amount of cash each partner receives is based upon specific provisions of each operating agreement and varies depending on factors including the amount of capital contributed by each partner and whether any contributions are entitled to priority distributions. Upon liquidation of the joint venture and after all liabilities, priority distributions and initial equity contributions have been repaid, the partners generally would be entitled to any residual cash remaining based on their respective legal ownership percentages.

We provide pro-rata financial information because we believe it assists investors and analysts in estimating our economic interest in our unconsolidated joint ventures when read in conjunction with the Company's reported results under GAAP. The presentation of pro-rata financial information has limitations as an analytical tool. Some of these limitations include:

- The amounts shown on the individual line items were derived by applying our overall economic ownership interest percentage determined when applying the equity method of accounting and do not necessarily represent our legal claim to the assets and liabilities, or the revenues and expenses; and
- Other companies in our industry may calculate their pro-rata interest differently than we do, limiting the usefulness as a comparative measure.

Because of these limitations, the pro-rata financial information should not be considered in isolation or as a substitute for our financial statements as reported under GAAP. We compensate for these limitations by relying primarily on our GAAP results and using the pro-rata financial information only supplementally.
